A regular meeting of the Animal Services Advisory Committee of the City of San Angelo was held on Thursday, August 17, 2017 at 12:00 p.m. at the McNease Convention Center – South Meeting Room, 501 Rio Concho Drive, San Angelo, Texas, for the purpose of considering the following agenda items.

Committee Attendees: Timothy Davenport-Herbst, David Howard, Victor Schulze, Ryan Smith and Jenie Wilson
Staff Attendees: Bob Salas, Director of Neighborhood and Family Services
Robert Diaz, Shelter Supervisor

1. Call to Order **2. Public Comment**

David Howard called the meeting to order and asked for public comment on items not on the agenda. There were no comments.

3. Consent Agenda

- a. Consider approving the May 18, 2017 regular meeting minutes. Mrs. Wilson moved to approve, Mr. Howard seconded. The motion carried.

4. Regular Agenda

- a. Consider election of a chairperson and vice chairperson to unexpired terms ending January 2018. Mr. Smith self-nominated for chairperson, Mr. Davenport-Herbst seconded. The motion carried. Mr. Smith nominated Mr. Davenport-Herbst for vice chairperson, Mr. Howard seconded. The motion carried.
- b. Discussion and possible action related to monthly shelter numbers for May, June and July 2017. Mr. Salas presented the numbers for the months of May, June and July 2017. Discussion of intake, adoptions and euthanasia were presented. Discussion regarding owner returns clarifying that this is pets reunited to their family. Discussion regarding growth in microchip clinic usage. Clarification on the live release rate as this indicates the number of animals not euthanized. Mrs. Wilson noted the discrepancies between Concho Valley PAWS' adoptions and transports vs. the city's as we correct the administration of case sheets. Mr. Smith asked for further breakdown of what the numbers encompass. Public comment was made by Mr. Bill Lockett regarding the owner returned.
- c. Discussion and possible action related to animal control officer training and euthanasia protocol. Mr. Salas presented the process for animal control officer training including formal classroom

requirements as well as on the job training and online classes. If needed, the training period is expanded depending on the situation. Public comment was made by Christina Delao who asked for more information on the euthanasia training and protocols. Mr. Bill Lockett also commented in favor of more staffing.

Mr. Salas went on to describe the euthanasia protocol. Dr. Schulze provided more information on the procedure. Discussion was also held regarding how to determine what, if any, animals would be euthanized in the field. Mr. Smith requested some scenarios of what illnesses are subject to euthanasia, both in the field and in the shelter for the next meeting. Mr. Davenport-Herbst asked about the controlled substances. Dr. Schulze advised that the Drug Enforcement Agency can and does audit our log of administered drugs and that the narcotics in question do have some street value and use. Christina Delao commented again requesting information on whether the heart beat is taken to ensure the animal is truly deceased and staff answered in the affirmative. Public comment from Alan Prest asked if an audit was conducted to ensure that staff is following our own protocols. Mr. Salas advised we'd follow up with this information. Dr. Schulze suggested that a third party conduct the audit. Mrs. Wilson noted that our own protocols are more restrictive than the state level so the audit would not be conducted by the state. Mr. Howard asked what documentation is required when a euthanasia is conducted. Mr. Diaz described the procedure which includes the assignment of a case number, entry into our software system and the log of the disposition of the animal including euthanasia, adoption and owner redeemed. Christina Delao asked if photographs are required. Mr. Salas advised that is in place now as a new procedure.

5. Follow Up and Administrative Issues

- a. Consider future agenda items. Alan Prest stated that the May community cat presentation was not factual. Mr. Salas suggested a committee training at the October 19th regular meeting instead of a standard agenda. Bill Lockett commented on animal control officer training.

6. Adjournment Mr. Davenport-Herbst motioned to adjourn, Dr. Schulze seconded. Meeting was adjourned.

Discussion and possible action related to the animal control procedure for bite cases.

Summary/History:

Municipal Court Judge Gilbert, municipal prosecutor Deborah Womack and myself meet weekly to review laws and practices for the animal services division to improve procedures. As situations come up, we develop standard operating procedures for even greater service delivery to citizens.

The first such standard operating procedure is before you today regarding bite cases. Animal services' number one priority is to prevent the spread of disease from animals to humans. As such, both state health code chapter 822 and city ordinance 3.01.010 govern practices for investigating bite cases.

Attached are both laws for your reference as well as the standard operating procedure which was conveyed to staff. Admittedly, the procedures for complying with city ordinance need improvement and we're working to overhaul the ordinance for greater governance.

CHAPTER 3

ANIMAL CONTROL

ARTICLE 3.01 GENERAL PROVISIONS^{*}

Sec. 3.01.001 Definitions

As used in this chapter, the following words shall have the meanings ascribed to them unless the context otherwise indicates:

Altered animal. An animal rendered unable to procreate by vasectomy, tubal ligation, spay or neutering.

Animal. Any living vertebrate creature.

Animal breeder. An owner of an unaltered dog or cat that sells, trades, or gives away the offspring of the unaltered dog or cat.

Cat. All members of the feline family of either sex, including one spayed or neutered.

Dog. All members of the canine family of either sex, including one spayed or neutered, except that a dog used for law enforcement by a governmental entity is an instrumentality of the law enforcement officer and is subject only to the rabies provisions of this chapter or as mandated by state law.

Ear tipping. The surgical removal of one-third (1/3) of the end of a cat's left ear under general anesthesia. This procedure is performed by, or under the direct supervision of, a licensed veterinarian typically during the sterilization process. Ear tipping is a widely accepted means of identifying if a free-roaming community cat is already sterilized, as it prevents that cat the stress of another unnecessary surgery. It is preferable that female cats are ear tipped on the left ear and male cats have their right ear tipped.

Free-roaming community cat. A cat that is abandoned, stray, lost or feral and cared for by a free-roaming community cat caregiver pursuant to this chapter.

Free-roaming community cat caregiver. A person who, in accordance with the trap-neuter-return-maintain program defined in this chapter:

- (1) Provides care, including food, water, and shelter where possible, makes provisions for appropriate vaccinations, and medical care to a free-roaming community cat; or
- (2) Has temporary custody over a free-roaming community cat.

A free-roaming community cat caregiver shall not be considered the owner or keeper of a free-roaming community cat.

Free-roaming community cat colony. Any number of cats that congregate, more or less, together as a group and are managed by a free-roaming community cat caregiver. While not every cat in a colony may be feral or stray, any cat that congregates with free-roaming community cats is deemed part of a free-roaming community cat colony.

Harbors or harboring. The act of keeping or caring for an animal.

Microchip. A small device placed under the skin between an animal's shoulder blades containing the owner's information and a number.

Multi-pet owner. A person who keeps or harbors more than seven dogs, other than puppies under four months of age.

Nuisance. For purposes of article 3.10, conduct by domesticated or free-roaming community cats that cause property damage or that disturb the peace. Stray, free-roaming or free-roaming community cats may create a nuisance by:

- (1) Habitually or continually howling, crying, or screaming; or
- (2) Habitually and significantly destroying, desecrating or soiling property against the wishes of the owner of the property; or
- (3) Causing significant damage to natural resources.

Any person, firm, corporation, company or association who has, harbors, keeps or causes or permits to be harbored or kept, or has in his care or who permits a dog, or cat or other animal to remain on or about his premises for a period of three (3) days or more. A person, firm, corporation, company or association shall not be deemed the owner or custodian of an animal when the animal is free-roaming native wildlife or a free-roaming community cat.

Potbellied pig. The common name of animals otherwise scientifically known as *Sus scrofa domestica*.

Prohibited animal. An animal including but not limited to the following:

- (1) Any animal protected or endangered according to state or federal laws.
- (2) Class Reptilia: All venomous snakes, venomous lizards and other venomous animals within the Class Reptilia and animals in the Order Crocodilia.

Qualified rescue organization. An organization that is tax-exempt under section 501(c)(3) of the Internal Revenue Code and is organized and operated exclusively for the purpose of the prevention of cruelty to animals.

Spayed or neutered. Surgically sterilized sexually

Temporary. Only the time necessary to carry out the authorized activity.

Trap-neuter-return-maintain. The process of humanely trapping, sterilizing, vaccinating for rabies, ear tipping, returning free-roaming community cats to their original location, and maintain the free-roaming community cat colony.

Sec. 3.01.010 Persons bitten by dog, cat or other animal

(a) Should any person or animal be bitten or scratched by a dog or cat ("suspect dog or cat" herewith), such suspect dog or cat shall be quarantined for observation for a period of not less than

ten (10) days immediately following the date of the bite incident. For a temporary period of time pending quarantine, upon receipt of knowledge of the bite or scratch incident, such suspect dog or cat shall be confined by the owner in a building or secure enclosure or securely chained to prevent escape or injury to said suspect dog or cat and to prevent contact with other persons or animals.

(b) Failure of the owner of a suspect dog or cat to act as herein described shall constitute an offense, and each hour of failure to comply with these provisions after receipt of knowledge of the incident by the owner will constitute a separate offense.

(c) Should any person or animal be bitten or scratched by an animal of a species known to be a rabies carrier, not a dog or cat ("suspect animal"), and not a wild animal, such suspect animal shall be immediately delivered to the city animal shelter by the owner or person in control of the animal for examination and determination by the city veterinarian whether such suspect animal is to be quarantined (including the length and type of quarantine) after consultation with the veterinarian(s) who has previously attended said animal. Provided, however, if after examination and consultation as provided above, the city veterinarian determines that euthanasia for rabies determination is appropriate, such shall be done.

(d) Quarantine arrangements for a suspect dog or cat or suspect animal shall be made by the owner of such suspect dog or cat or suspect animal within twenty-four (24) hours of receipt of knowledge by the owner of the bite or scratch with the animal services department of the city. Failure of the owner of such suspect dog or cat or suspect animal to make quarantine arrangements and so advise the animal services department shall constitute an offense and each hour of failure to comply with this provision following the twenty-four (24) hour time limit shall constitute a separate offense.

(e) Quarantine of a suspect dog or cat or suspect animal shall be accomplished by one of the following methods:

(1) Said animal may be quarantined by the city animal shelter under supervision of the veterinarian employed by the city.

(2) Said animal may be quarantined at the clinic or hospital of any licensed veterinarian in the immediate area.

(3) Said animal may be home quarantined upon approval of the animal services director.

(f) Regardless of the place of quarantine, the animal shall be examined at the initiation of the quarantine and again at the conclusion of the quarantine period by a licensed veterinarian, who shall notify the animal services department of his findings from said examinations.

(g) Any quarantined suspect dog, cat or ferret not vaccinated against rabies nor registered with the city during the twelve (12) month period immediately preceding the date of the bite or scratch incident shall be vaccinated by the attending veterinarian at the conclusion of the quarantine period, and the animal shall be registered before being released.

(h) The owner of the quarantined suspect dog or cat or suspect animal shall pay all fees incident to the quarantine prior to release of the animal from quarantine by the veterinarian except, if the animal bit or scratched the owner or a member of his immediate family, such animal may, at the discretion of the local rabies control authority, be quarantined at the home of the owner, provided the veterinary examination of said animal at the beginning of the quarantine period reveals no reason to suspect the presence of rabies in said animal. Should there be any doubt as to the rabies status of said animal by the examining veterinarian, then quarantine shall be accomplished by one of the methods described above, or the animal destroyed as described herein. Said animal must be

examined at the conclusion of the quarantine by a veterinarian and all other portions of this section shall apply.

(i) In the event the owner of a suspect dog, cat or ferret is unknown, said animal shall be considered a stray and it shall be quarantined at the city animal shelter. Should a person subsequently appear and claim said dog, cat or ferret, then said person shall be considered as the owner and be liable for all fees incident to the quarantine as described herein. If all fees are not paid within three (3) days following the quarantine period at the city animal shelter, said dog, cat or ferret may be sold or destroyed by the animal services director.

(j) Any animal suspected of being infected with rabies may be destroyed immediately upon recommendation of a licensed veterinarian for determination of rabies.

(k) Any wild animal that is not a domesticated animal, without a licensing tag, found within the city corporate limits and subject to this section, may be euthanized by the animal services department or killed by a police officer and the head of said animal delivered to the animal shelter for rabies examination at the discretion of the local rabies control authority.

(l) Whenever any animal bites any other animal, all regulations and requirements herein described shall apply to both the attacking animal and the animal that is bitten. Should an animal be bitten by an animal determined to have rabies, then it shall be handled by one of the following methods:

(1) If not vaccinated against rabies for a period of at least thirty (30) days and no more than twelve (12) months immediately preceding the date of exposure, said animal shall be quarantined for a minimum period of ninety (90) days immediately following the date of exposure at a veterinary hospital or the city animal shelter, with said animal being examined and vaccinated against rabies as required under current department of state health services regulations and reexamined at the end of the quarantine period by a licensed veterinarian, unless owner gives written consent to destroy it;

(2) If vaccinated against rabies for a period at least thirty (30) days and no more than twelve (12) months immediately preceding exposure, said animal shall be given the appropriate rabies booster immediately and quarantined for forty-five (45) days; or

(3) Euthanasia.

(1996 Code, art. 3.1500; Ordinance adopted 9/18/07, sec. 4; Ordinance adopted 10/6/15)

Sec. 3.01.011 Prohibited animals

(a) Prohibition. It shall be unlawful for any person to own, possess, exhibit or harbor a prohibited animal within the city.

(b) Exceptions. If the animal is restrained from inflicting injury upon persons, property or other animals and adequate provision is made for the protection of the animal, the provisions of this section are not applicable to the following:

(1) The permanent possession, exhibition or harboring of hamsters, guinea pigs or gerbils;

(2) The temporary possession, exhibition or harboring of a prohibited animal where such possession, exhibition or harboring is associated with organized public

 - a. If deemed dangerous, send a letter to owner stating the dog is declared dangerous.
 - b. The owner may then apply to municipal court under 822.0421
 - c. Pursuant to chapter 822.042, the owner has 30 days to comply with the regulation.
